Policy on Customer Protection - Limiting Liability of Customers in Unauthorised Electronic Banking Transaction

1. Introduction

Considering the recent surge in customer grievances relating to unauthorised electronic transactions causing debits to customer accounts/ cards, various aspects of customer protection and criteria for determining the customer liability have been reviewed. The risks arising out of unauthorized debits to customer accounts owing to contributory fraud, Bank negligence, customer negligence and third party breaches have been taken into account and the rights and obligations of customers in case of unauthorized electronic transactions in various scenarios have been defined. This Policy covers aspects of customer protection, including the mechanism of creating customer awareness on the risks and responsibilities, and customer liability arising in specific scenarios of unauthorized electronic transactions.

This Policy is built on the regulatory requirements as enunciated by Reserve Bank of India (RBI) vide their circular bearing reference: DBR.No.Leg.BC.78/09.07.005/2017-18 dated 6th July 2017.

2. Types of electronic Banking transactions:

Electronic Banking transactions can be broadly divided into two categories:

- (i) Remote/ online payment transactions (transactions that do not require physical payment instruments to be presented at the point of transactions e.g. internet Banking, mobile Banking, card not present (CNP) transactions), Pre- paid Payment Instruments (PPI), and
- (ii) Face-to-face/ proximity payment transactions (transactions which require the physical payment instrument such as a card or mobile phone to be present at the point of transaction e.g. ATM, POS, etc.)

3. Bank's commitment to ensuring customer protection:

The Bank is committed to ensuring safety and security of electronic Banking transactions carried out by customers. The Bank will put in place the following:

- (i) robust and dynamic fraud detection and prevention mechanism;
- (ii) mechanism to assess the risks (for example, gaps in the Bank's existing systems) resulting from unauthorised transactions and measure the liabilities arising out of such events;
- (iii) appropriate measures to mitigate the risks;
- (iv) a system of continually and repeatedly advising customers on how to protect themselves from electronic Banking and payments related fraud.

4. Reporting of unauthorised transactions by customers to Bank

The Bank will ensure that customers are mandatorily registered for SMS alerts and wherever available for email alerts, for electronic Banking transactions. Bank will mandatorily send SMS alerts to the customers, while the email alerts may be sent wherever registered. Further, the Bank will not be able to offer facility of electronic transactions, other than ATM cash withdrawals, to customers who do not provide mobile numbers to the Bank. These facilities will be withdrawn for customers after due

notice is provided to them.

The Bank requires customers to notify the Bank about any unauthorised electronic Banking transaction at the earliest after the occurrence of such transaction as longer the time taken to notify the Bank, the higher will be the risk of loss to the Bank/customer. To enable this to be done in a smooth and efficient manner, the Bank will provide customers with 24x7 access through multiple channels (via website, SMS, e-mail, a dedicated toll-free helpline, reporting to home branch, etc.) for reporting unauthorised transactions that have taken place and/ or loss or theft of payment instrument such as card, etc.

Further, the Bank will provide a direct link for lodging the complaints, with specific option to report unauthorised electronic transactions in the home page of the Bank's website. Immediate response (including auto response) will be sent to the customers acknowledging the complaint along with the registered complaint number. The communication systems used by the Bank to send alerts and receive their responses thereto will record the time and date of delivery of the message and receipt of customer's response, if any, to the Bank.

On receipt of report of an unauthorised transaction from the customer, the Bank will take immediate steps to prevent further unauthorised transactions in the account. On being notified by the customer, the Bank will undertake a preliminary investigation to establish the reason for the dispute. Where the transaction does not involve a third party, the Bank will endeavor to complete the investigation within 10 working days of notification.

5. Liability of a Customer

a) Zero Liability of a Customer
